

Interested in providing the best 360° feedback survey for your company? The right survey, right features, fast -- at the right price? With STAR as your 360 survey vendor, that's just what you'll get.

Fast Survey Process

For 360° feedback that perfectly fits your unique needs, you can choose to use:

- Your own set of questions
- Our established surveys, or
- Our question bank to create new surveys

Affordable Pricing

There is a simple one-time setup and an affordable per report fee. No exclusivity demands, no license agreements, no hassles. No, none of that stuff that artificially binds you to a vendor. We want you to stay with us because you're getting the best survey experience, the best customer support, and at the best price. That's our promise.

Flexible Solutions

Your organization is unique and you want a process that fits your needs without expensive customization. We can configure our current technology to accommodate almost any need. In the rare case you need something special, our customization fees are very low.

"It's all about flexibility. STAR's services & technology are outstanding."
- BH Consulting

"Flexibility is one of the biggest reasons we value STAR.

You always listen.

It's been a really good partnership. We don't look at STAR as a vendor, but as a partner.

We value you."
- Sprint

Knowledgeable, Experienced Partners

Enjoy all the benefits of having an experienced, professional 360 survey staff -- without any of the overhead. We've deployed over 2.5 million surveys in over 41 countries. We'll handle the day-to-day survey administration to insure your process is flawless. We also give you easy-to-use tools so you have instant access to information and answers, when you need it. You become your company's expert, and we back you up.

Safe, Reliable, Secure Processing

Don't worry. Your survey data is protected from unauthorized access, because we've got the highest security standards. Our equipment is housed at a multi-tiered secured site with on-duty technical personnel, and monitored 24/7. The components are backed up with a complete mirrored second set for maximum reliability and perpetual up-time. And, on top of all that, to be sure there's no peeking allowed, your data is fully encrypted and secure.

Direct Contact, Direct Access

When you need help, you get help from real people. We'll set you up with your own project manager and give you her/his direct dial number, so there's no run-around.
